

R E M A R K S

This responds to a telephone request from Examiner Morrison that dependent apparatus claims be amended to define subject matter in apparatus terms. The above amendments accomplish this and are intended to make all the apparatus claims clear, definite, and unobjectionable.

The claims otherwise have been found to distinguish from the cited art and to be allowable so that with the present supplemental amendment, all the pending claims should become allowable.

For any question on this response or the application, the Examiner is invited to call applicant's attorney.

Respectfully submitted,
